A Mother's Love

Love is the greatest of all virtues and love is the most powerful of all emotions. Love is the most powerful force known to man.

1. Mother's Love is From God

When a woman conceives and carries a child in her own body, there is a bond of life between them that is never broken.

2. Mother's Love is Unselfish

A mother's love is freely given, even before birth. When we could not care for ourselves, a mother's love watched over us. Only the love of God is greater than a mother's love.

3. Mother's Love is Undying

There is no friend on earth like a mother. Her love will follow her child through success and failure, life and death. "Many waters cannot quench love."
